?

Problem:

Water pipe burst in a property. But your mechanic cannot be found

Solution:

With sellify you can plan your employees optimally.

- Planning calendar with overview of all employees
- Coordinate resources efficiently
- Manage appointment reminders
- Documentation of performed and outstanding activities

Problem:

A customer calls and wants to discuss an offer with you. But you cannot find it anywhere

Solution:

With sellify//phone you can recognize customers by their ringing and navigate to the customer archive with all customer data in one click:

- Automatic phone number recognition
- History of calls made and missed calls
- Easy documentation through sellify activities directly from sellify//phone
- Convenient dialing of a phone number with a click from sellify

Problem:

Your sales representatives are constantly on the road. This leaves hardly any time for documentation and coordination with colleagues in the office.

Solution:

sellify//onTour allows you to work flexibly from home or on the road:

- Retrieve the required knowledge from anywhere
- Editing and entering new data entries
- Offline-Access your documents from sellify and their editing
- Automatic synchronization of data when connecting to corporate servers

?

Problem:

Your new product comes on the market, which you want to offer to your business partners. But where are the sales potentials?

Solution:

With sellify//e-Marketing, you can use the data stored in sellify to identify potential customers and advertise products in personalized newsletters to specific target groups:

- Targeted composition of target groups
- Individual design of E-Marketing campaigns
- Targeted control of relevant content
- Progress and success analyses in sellify

Problem:

Your company has a large vehicle fleet. It is sometimes difficult to keep an eye on everything.

Solution:

With sellify you keep track of your current company vehicles and all service appointments:

- Inspection reminders
- Overview of the current fleet costs
- Documentation of current mileage, fuel consumption etc.
- Framework data, such as purchase prices and key numbers, centrally stored

?

Problem:

A colleague is ill and you have to replace him at an important meeting at short notice. But how do you get the information about the project quickly?

sellify
Nichts leichter als das.

Solution:

With sellify you can view and edit the status of a project across multiple people.

- Project status with all related documents always at hand
- Contact persons, milestones and dates at a glance
- Clear project history
- E-mail history for a project stored centrally

?

Problem:

As a department head, you are spontaneously asked in a meeting about the expected order situation. You were not prepared for this.

Solution:

With sellify you can view the opportunities stored by employees to get forecasts for your company:

- Process or performance-oriented evaluations
- Monitoring trends and forecasts
- Derive key figure-based corporate strategies
- Create manual and automated reports

?
