sellify
Nichts leichter als das.

sellify on Tour

Experience maximum flexibility: Work easily, safely and reliably from on the road or at home - without interruption.
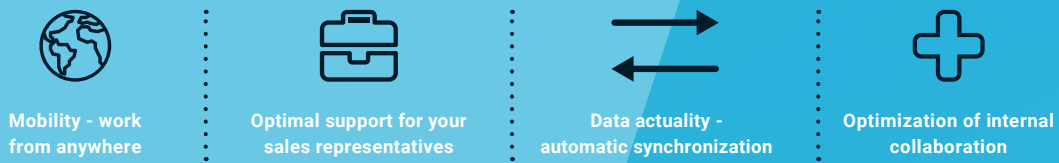

Description

With sellify on Tour you are able to work with your sellify solution in full functionality at any time and any place.

With an existing internet connection, your data is automatically synchronized with the company server. Thus you are always informed and your colleagues in the head office always have the latest status of your work. Data transfer is, thanks to state-of-the-art encryption methods, on request with VPN security, protected from access by third parties

Installation & configuration

sellify on Tour is licensed per workstation for your company. The service is installed and configured on your central and local database server. Additionally, the configuration of the sellify//onTour client on the respective workstations is necessary.

At a glance

| Mobility - work from anywhere | Optimal support for your sales representatives | Data actuality - automatic synchronization | Optimization of internal collaboration |
